Satie a long time coming, Strauss enshrined by moving pictures, Partch making his own instruments and scales, Loudon saying it so simply, Coltrane leaving the planet and returning with fruits of beyond. And so many others, so much to listen to, share, yet so little is heard. — We are here to fill this gap...

TRIAD is unlike anything you have ever heard. It is an art form striving to stimulate and inform the world community, to approach the radio medium as a flexible fluid environment that answers the call of change.

It is your source for sounds & visions not to be heard elsewhere either in content or in presentation. It is our intent to encompass all musical forms for we believe that all music in one continuous vibration, arranged and expressed in an infinite number of ways. Evenings move from John Prine to Zappa to Mars via Holst back to (Earth) the Natives of Rhodesia, and while Hendrix in their midst speaks of reincarnation. Sun Ra prepares his interpretation of the universe. On to the AACM. (Anthony Braxton, Roscoe Mitchell, Richard Abrams, et al) Elmore James, Beeheart, Beatles, Cage, Stravinsky, Bach, Ono, the Airplane: The masks are different but the faces remain the same.

Your listening is appreciated; your participation is expected; your contribution is limited only by your imagination...TRIAD c/o WXFM 333 N. Michigan, Chicago, Ill., 60601 — day-(312)973-1277 — nite-(312)943-7474. Our co-ordinates on EARTH are 106 on your FM band, weeknites between the hours of 8 pm and midnite. We are there when you are there.

The wheel of the law turns
without pause.

After the rain, good weather:
In the wink of an eye.

The universe throws off
its muddy clothes.

For ten thousand miles
the landscape

spreads out like a beautiful brocade.
Light breezes. Smiling flowers.

High in the trees, amongst
the sparkling leaves

all the birds sing at once.
Men and animals rise up reborn.

What could be more natural?
After sorrow, comes joy.

THE TRIAD COZMOZODIAC MAGICK GAME FOR EVERYONE

OSPENSKY has shown that the line, the plane surface and the cube, which represent our three dimensions of space, have their counterparts in what we regard as 'time', which he divides into three further dimensions, the fourth: 'The line of the sequence of the moments of the actualization of one possibility'; fifth: 'The line of the eternal existence or repetition of actualized possibilities'; sixth: 'The line of actualization of all possibilities'. Because astrology deals with the world of potentials and possibilities it is related naturally to the fourth, fifth and sixth dimensions. Hence the difficulty of formulating a rational explanation of astrology that will appeal to the three dimensional awareness of man!

PRECOGNITION IN PRINT

THIS UNUSUAL CALENDAR we should have known better. It is the date of President Kennedy's assassination — as a legal holiday, Ann Meggellin, Chula Vista, Calif., the FARE calendar, M.C., Bob Iseman, and a number of sales, taught us a lot about extraterrestrials.

1963 NOVEMBER 1963

Days	Mon	Tue	Wed	Thu	Fri	Sat
1	2	3	4	5	6	7
8	9	10	11	12	13	14

calendar was misprinted such a death of President Kennedy's death. Yes, it is strange — but we cannot call it mystifying unless we are willing to attribute occult powers to gigantic steel printing presses. We discovered that coincidence. We discovered that Thanksgiving Day, 1973, falls on November 22 and we pictured a wisened old man in a green eye-glass. It was a picture of a man so by human error "22" was scratched on the 1963 calendar rather than "21", the proper date of Thanksgiving that year. In this age of automation

In the production of November 22, the German publisher from the "21" slot to the "22" slot and the press made some 800,000 impressions before the correction could be made. The publisher's ready explanation of the mechanical error, you know and we know that coming events do cast their shadows before. It, as accurate, new theory, the underterminates length of time before reaching fruition, then may not a steel printing press be an instrument participating in the final reality that brings about motion to the preprogrammed event.
